

Expectations From Stuttering Therapy: Qualitative Content Analysis of Client's Perspective in Kannada Speaking Adults Who Stutter

Audrey J. Dsouza¹ and Santosh M.²

¹Post Graduate student ²Professor, Department of Speech-Language sciences, AllSH, Mysuru

Introduction

Qualitative content analysis

Narratives

Understanding clients' perspectives

Method

21 AWS
(18-33yrs)
Attended
therapy- **X**

Eg: How do you think stammering has affected your life? How do you think with speech therapy, these factors will be minimized?

Content analysis
(Graneheim & Lundman, 2004)

"They said it
will be cured"

Complete cure

Recovery

Beliefs and
understanding
of stuttering

Aim

Expectations of
AWS about
fluency therapy

Results and discussion

Category

Beliefs and understanding of stuttering

Stuttering and related behaviours

Goals and outcomes of therapy

Sub-category

Eg: Recovery

Eg: Affective
behaviour

Eg: Fluency

Deciding on therapy
approaches based
on clients' needs and
realistic expectations

Educating clients
about realistic
goals

Conclusion

Understand
anticipatory
beliefs

Select appropriate
goals, activities,
and interpretation
of prognosis
